Timing marks are always in the same place regardless or make. Engine timing marks are a notch on the crankshaft pulley with marks on a casting or metal plate next to the crankshaft pulley. Camshaft marks are on one (single cam) or both (twin cam) cylinder head pulleys with a fixed mark on top of or central to the pulleys. These videos may help you.

The Toyota E engine family is a straight-four piston engine series, and uses timing belts rather than chains. The E engines were the first multi-valve engines from Toyota designed with economy, practicality and everyday use in mind (rather than performance). Like many other Toyota engines from the era, the E engine series features a cast iron block, along with an aluminium cylinder head.

The pointer plate will be marked in either one or two-degree increments and should have the timing mark for your 2.8L V6 engine noted. If not, count back from the "0" mark the correct number of degrees before top dead center, as noted on the VECl label under the hood, and mark the plate with chalk. Find the notch on the crankshaft pulley.
