What Are Parasites? Parasites are generally acquired from consuming contaminated food or water, but people with imbalanced gut flora, leaky gut syndrome or a weakened immune system may be more susceptible. A parasite is an organism that lives on or in a host and gets its food from or at the expense of its host.

Benjamins Parasite - rupert.flowxd.me

For the majority of us reading this a brush with a parasite will be a fairly unremarkable episode. Hey, we've all had head lice, fleas and the odd case of worms – oh, maybe that's just me. The point is these are generally just an irritation and not much more. The collection of human parasites I've [...]

10 Most Horrific Human Parasites | Planet Deadly

The metaphorical categorization of social and political adversaries as "parasites" has an infamous history in public discourse: For two centuries it has been routinely used for the purpose of racial and socio-political stigmatization. In cognitive accounts, the parasite-metaphor has usually been treated as an example of semantic transfer from the biological to the social domain.

Metaphorical parasites and "parasitic" metaphors: Semantic ...
