The histology text the medical field turns to first -- authoritative, concise, beautifully illustrated, and completely up-to-date More than 600 full-color illustrations For more than three decades, Junqueira's Basic Histology has been unmatched in its ability to explain the relationship between cell and tissue structure with their function in the human body. Updated to reflect the latest research in the field and enhanced with more than 600 full-color illustrations, the thirteenth edition of Junqueira's represents the most comprehensive and modern approach to understanding medical histology available anywhere.

Medical terminology, also known as med terms, is the language of health care. The language is used to precisely define the human body, it's functions and processes, and the procedures used in medicine. In this book, you will learn: -CHAPTER 1: Basic Word Elements -CHAPTER 2: Rules to Defining and Building Medical Terminology -CHAPTER 3: Types of Prefixes -CHAPTER 4: Types of Suffixes -CHAPTER 5: The Reproductive System -CHAPTER 6: The Urinary System -CHAPTER 7: The Digestive System -CHAPTER 8: The Respiratory System -CHAPTER 9: The Cardiovascular System -CHAPTER 10: The Lymphatic System & Immunity -CHAPTER 11: The Endocrine System -CHAPTER 12: The Musculoskeletal System -CHAPTER 13: The Special Senses -CHAPTER 14: The Nervous System and Psychiatry -CHAPTER 15: The Integumentary System -CHAPTER 16: Terms Related to Body Structures and Organization -CHAPTER 17: Conclusion

Use this study tool to master the content from your Today's Medical Assistant: Clinical & Administrative Procedures, 2nd Edition textbook! Corresponding to the chapters in the textbook by Kathy Bonewit-West, Sue Hunt, and Edith Applegate, this study guide helps you understand and apply the material with practical exercises, activities, flashcards, checklists, review questions, and more. Chapter assignment tables at the beginning of chapters guide you through textbook and study guide assignments, and make it easy to track your progress. Laboratory assignment tables list the procedures in each chapter, including study guide page number references, and indicate the procedures shown on the DVDs. A pretest and posttest in each chapter measure your understanding with 10 true/false questions. Key term assessments include exercises to help in reviewing and mastering new vocabulary. Evaluation of Learning questions let you assess your understanding, evaluate progress, and prepare for the certification examination. Critical thinking activities let you apply your knowledge to real-life situations. Practice for Competency sections offer extra practice on clinical skills presented in the book. Evaluation of Competency checklists evaluate your performance versus stated objectives and updated CAAHEP performance standards. Updated content includes exercises for topics such as electronic medical records, advanced directives, HIPAA, emergency preparedness, ICD-10 coding, documentation, medical office technology, medical asepsis, vital signs, pediatrics, colonoscopy, IV therapy, and CLIA waived tests. New activities provide practice for the Today's Medical Assistant textbook's newest and most up-to-date content. New Emergency Protective Practices for the Medical Office chapter includes procedures, critical thinking questions, and other activities to help you understand emergency preparedness. New Wheelchair Transfer Procedure and Evaluation of Competency checklist includes a step-by-step guide to this important procedure. New video evaluation worksheets on the Evolve companion website reinforce the procedures demonstrated on the textbook DVDs. New practicum and externship activities on Evolve provide practice with real-world scenarios.
