Chemistry: The Central Science  
incorporates a consistent problem solving  
process throughout so students always  
know where to go when problem solving.  
Analyze/Plan/Solve/Check helps students  
understand what they are being asked to  
solve, to plan how they will solve each  
problem, to work their way through the  
solution, and to check their answers. This  
4 step problem solving methodology is  
introduced in chapter 3 (pg. 89) and  
implemented throughout the book.

helped millions of students understand and succeed in general chemistry. Its unrivaled problems, scientific accuracy, and clarity are maintained in this new edition, which is the book's biggest revision to date. In the Twelfth Edition, every word and piece of art has been studied for effectiveness. Based on feedback from students like you, this revision reflects the unparalleled expertise of its author team; each chapter has been updated and streamlined to remove any content not proven to increase student comprehension. Joined in this edition by new co-author Patrick Woodward, the book's solid authorship gains a fresh, new perspective yet maintains its unified, consistent voice. This edition features the exact same content as the traditional text in a convenient, three-hole- punched, loose-leaf version. Books à la Carte also offer a great value—this format costs 35% less
