This report describes educational and vocational guidance services for adolescents and young adults in Denmark, the Federal Republic of Germany, and the Netherlands. It is drawn from a larger study that was conducted to compare the nature and size of guidance services, their staffing and funding, the identity of their clients, and in particular, the coordination existing between the different branches of the services. This document contains three parallel reports, with each report organized in four sections. In each country's report, the first section provides background information about guidance services. The second, largest section describes the structure and staffing of professional guidance services. Information is included on guidance for various levels of schooling and for various populations. The third section of each country report establishes linkages between the various aspects of guidance, and the final section draws conclusions about the state of guidance in each country and makes recommendations for the future. (KC)
