Quality. We all make judgments about it every day. Yet articulating a clear definition of quality in an investing context is challenging. This book addresses the challenge, and distills years of practical investing experience into a definitive account of this under-explored investment philosophy. Finance theory has it that abnormal outcomes do not persist, that exceptional performance will soon enough become average performance. Quality investing involves seeking companies with the right attributes to overcome these forces of mean reversion and, crucially, owning these outstanding companies for the long term. This book pinpoints and explains the characteristics that increase the probability of a company prospering over time - as well as those that hinder such chances. Throughout, a series of fascinating real-life case studies illustrate the traits that signify quality, as well as some that flatter to deceive. The authors' firm, AKO Capital, has a strong track record of finding and investing in quality companies - helping it deliver a compound annual growth rate more than double that of the market since inception. *Quality Investing* sheds light on the investment philosophy, processes and tough lessons that have contributed to this consistent outperformance.

Energy-saving projects for remodeling or new home construction which include insulating, landscaping, solar and wood heating and wind power

When an exquisitely crafted, authentic imperial Faberge egg mysteriously shows up at Laurel Swann's home studio, she knows it can only be from one person—her father, who has drifted in and out of her life for as long as she can remember. But this time Jamie Swann leaves her something too many people will kill for. Out of her league and desperate, Laurel is forced to accept help from the very man who is trying to ensnare her father in his own web of double crosses. Cruz Rowan can help her stay alive, but will he do the same for her father? Elizabeth Lowell, writing as Ann Maxwell, deftly combines the nonstop action of a spy thriller with the heart-pounding excitement of true love and adventure.
