We have different gifts, according to the grace given to each of us. If your gift is prophesying, then prophesy in accordance with your faith; New Living Translation In his grace, God has given us different gifts for doing certain things well. So if God has given you the ability to prophesy, speak out with as much faith as God has given you.

Here, from Bill Clinton, is a call to action. Giving is an inspiring look at how each of us can change the world. First, it reveals the extraordinary and innovative efforts now being made by companies and organizations—and by individuals—to solve problems and save lives both —down the street and around the world. Then it urges us to seek out what each of us, —regardless of income, available time, age, and skills,— can do to help, to give people a chance to live out their dreams. Bill Clinton shares his own experiences and those of other givers, representing a global flood tide of nongovernmental, nonprofit activity. These remarkable stories demonstrate that gifts of time, skills, things, and ideas are as important and effective as contributions of money. From Bill and Melinda Gates to a six-year-old California girl named McKenzie Steiner, who organized and supervised drives to clean up the beach in her community, Clinton introduces us to both well-known and unknown heroes of giving. Among them: Dr. Paul Farmer, who grew up living in the family bus in a trailer park, vowed to devote his life to giving high-quality medical care to the poor and has built innovative public health-care clinics first in Haiti and then in Rwanda; a New York couple, in Africa for a wedding, who visited several schools in Zimbabwe and were appalled by the absence of textbooks and school supplies. They founded their own organization to gather and ship materials to thirty-five schools. After three years, the percentage of seventh-graders who pass reading tests increased from 5 percent to 60

percent;' Oseola McCarty, who after seventy-five years of eking out a living by washing and ironing, gave \$150,000 to the University of Southern Mississippi to endow a scholarship fund for African-American students; Andre Agassi, who has created a college preparatory academy in the Las Vegas neighborhood with the city's highest percentage of at-risk kids. "Tennis was a stepping-stone for me," says Agassi. "Changing a child's life is what I always wanted to do"; Heifer International, which gave twelve goats to a Ugandan village. Within a year, Beatrice Bira's mother had earned enough money selling goat's milk to pay Beatrice's school fees and eventually to send all her children to school—and, as required, to pass on a baby goat to another family, thus multiplying the impact of the gift. Clinton writes about men and women who traded in their corporate careers, and the fulfillment they now experience through giving. He writes about energy-efficient practices, about progressive companies going green, about promoting fair wages and decent working conditions around the world. He shows us how one of the most important ways of giving can be an effort to change, improve, or protect a government policy. He outlines what we as individuals can do, the steps we can take, how much we should consider giving, and why our giving is so important. Bill Clinton's own actions in his post-presidential years have had an enormous impact on the lives of millions. Through his foundation and his work in the aftermath of the Asian tsunami and Hurricane Katrina, he has become an international spokesperson and model for the power of giving. "We all have the capacity to do great things," President Clinton says. "My hope is that the people and stories in this book will lift spirits, touch hearts, and demonstrate that citizen activism and service can be a powerful agent of change in the world."

You can make a difference on a daily basis, and it's not as difficult as you may think! Most people think they have to donate a lot of time and money in order to make a difference. But there are simple ways to integrate giving into our personal and professional lives that don't involve either. Every day we have opportunities to do small things, like hold the door open for a stranger or pay someone else's toll, that can brighten that person's day. We can also think about ways to make giving a part of our long-term goals—for example, by incorporating sustainability and social good into our business models. Simple Giving inspires us with the stories of how people, ranging from moms to social entrepreneurs, are giving back in creative ways.

Gold Medal Winner; Philanthropy, Charities, and Nonprofits; 2012 Axiom Business Book Awards Giving 2.0 is the ultimate resource for anyone navigating the seemingly infinite ways one can give. The future of philanthropy is far more than just writing a check, and Giving 2.0 shows how individuals of every age and income level can harness the power of technology, collaboration, innovation, advocacy, and social entrepreneurship to take their giving to the next level and beyond. Major gifts may dominate headlines, but the majority of giving still comes from individual households—ordinary people with extraordinary generosity. Even in 2009, at a time of deep recession, individual giving averaged almost \$2,000 per household and drove 82% of the \$300 billion donated that same year. Based on her vast experience as a philanthropist, academic, volunteer, and social innovator, Arrillaga-Andreessen shares the most effective techniques she herself pilots and studies and a vast portfolio of lessons learned during her lifetime of giving. Featuring dozens of stories on innovative and powerful methods of how individuals give time, money, and expertise—whether volunteering and fundraising, leveraging technology and social media, starting a giving circle, fund, foundation, or advocacy group, or aspiring to create greater social impact—Giving 2.0 shows readers how they can renew, improve, and expand their giving and reach their fullest potential. A practical, entertaining, and inspiring call to action, Giving 2.0 is an indispensable tool for anyone passionate about creating change in our world.

David Green believes that generosity and building a legacy based on giving can lead to getting back what you really want: a family that stays together, prays together, and shares life joyfully. Green tells the story of caring for the small things and starting Hobby Lobby in their garage. He shares the difference between the worlds of "having and hoarding" and a world of "giving and generosity," the principle of working for God and not for men, and that now is not too soon to consider what you want your legacy to be. As proof of how living by those principles can change your life, Green shares that when Hobby Lobby came close to bankruptcy in 1986 and when the Supreme Court challenged the Hobby Lobby's right to life beliefs in 2014, the company emerged with its integrity intact. Green sees the life of giving as a life of adventure. But it's a life that pays the best rewards personally, offers a powerful legacy to your family, and changes those you touch.

What if giving can change the world? Well, it can. In fact, it already has. And you have the opportunity to join in the movement that God has begun, a movement close to his own heart. Giving is how God changes the world. We're often focused on what we can take or receive from God and others. But in *The Book of Giving*, the author reveals that this is stunting the growth of our souls. The God who always gives—Father, Son, and Holy Spirit—has invited us into his giving circle. In that circle, we don't just hope to receive. We hope to move the giving forward—to receive, give thanks, and give back. This movement of giving is at the center of all relationships. Join the author as he uses gifts as a perspective on who God is, who we are, and what the world is like. This book is packed with reader resources to help you study yourself and grow as a giver. It's not just a book to read; it's a book to eat, a book that will energize change in your daily life. The changes God will make in the world can start inside you with the smallest seeds, with a prayer, a conversation, a cup of coffee. Change starts with giving. And you'll be amazed at the results. Come see God from a fresh perspective and find yourself anew in *The Book of Giving*.

Your gifts connect you to a world of giving Americans are generous with their pocketbooks, but trying to make a difference and actually making a difference are two different things. *Where Am I Giving?* by New York Times bestselling author Kelsey Timmerman takes you on a journey to meet people who will inspire you to live a purpose-filled, generous life and make the greatest impact you can through your career, time, consumer dollars, and donations. Starting in his hometown of Muncie, Indiana, and then traveling all over the world (Myanmar, Kenya, India, Nepal, and more), Kelsey explores not only different ways of giving—as a worker, consumer, volunteer, giver, local and global citizen—but also the benefits and effectiveness of these methods. He spends time with monks, students, a refugee, a Marine, a former Hollywood executive, Peace Corps Volunteers, and seasoned aid workers to explore how they give, as well as with the people on the receiving end of their giving. Along the way he struggles to be a more informed giver as he becomes a "voluntourist," starts his own local non-profit, and searches for a balance between rationality and passion in how he gives. This book will help you: Reveal the amazing opportunities you have to make an impact using your own gifts—and it doesn't have to be money Understand the sociology, philosophy, anthropology, and neuroscience of giving See how giving can make you more connected and happier Examine types of giving, including microlending, volunteering, donating, ethical consumption, mission trips, voluntourism, child sponsorship, etc. Dive into a nuanced view of effectiveness of international aid and its intersection with development, politics, and culture *Where Am I Giving?* is a fast-paced narrative combining

#1 New York Times Bestseller Over 1 million copies sold In this generation-defining self-help guide, a superstar blogger cuts through the crap to show us how to stop trying to be "positive" all the time so that we can truly become better, happier people. For decades, we've been told that positive thinking is the key to a happy, rich life. "F**k positivity," Mark Manson says. "Let's be honest, shit is f**ked and we have to live with it." In his wildly popular Internet blog, Manson doesn't sugarcoat or equivocate. He tells it like it is—a dose of raw, refreshing, honest truth that is sorely lacking today. The Subtle Art of Not Giving a F**k is his antidote to the coddling, let's-all-feel-good mindset that has infected American society and spoiled a generation, rewarding them with gold medals just for showing up. Manson makes the argument, backed both by academic research and well-timed poop jokes, that improving our lives hinges not on our ability to turn lemons into lemonade, but on learning to stomach lemons better. Human beings are flawed and limited—"not everybody can be extraordinary, there are winners and losers in society, and some of it is not fair or your fault." Manson advises us to get to know our limitations and accept them. Once we embrace our fears, faults, and uncertainties, once we stop running and avoiding and start confronting painful truths, we can begin to find the courage, perseverance, honesty, responsibility, curiosity, and forgiveness we seek. There are only so many things we can give a f**k about so we need to figure out which ones really matter, Manson makes clear. While money is nice, caring about what you do with your life is better, because true wealth is about experience. A much-needed grab-you-by-the-shoulders-and-look-you-in-the-eye moment of real-talk, filled with entertaining stories and profane, ruthless humor, The Subtle Art of Not Giving a F**k is a refreshing slap for a generation to help them lead contented, grounded lives.
