This revision guide covers all the remaining Intermediate specification points in the IB Computer Science Syllabus for Option A: Databases. The first volume covered Basic Concepts.

Revision notes for the IBDP Computer Science Syllabus (HL & SL) - Topic 2: Computer Organisation

The first part of a series of revision books aimed at the complete International Baccalaureate Computer Science (HL & SL) syllabus. Every topic in the syllabus is tackled with examples and text to help the student revise for the examination.

This book takes a fresh look at programs for advanced studies for high school students in the United States, with a particular focus on the Advanced Placement and the International Baccalaureate programs, and asks how advanced studies can be significantly improved in general. It also examines two of the core issues surrounding these programs: they can have a profound impact on other components of the education system and participation in the programs has become key to admission at selective institutions of higher education. By looking at what could enhance the quality of high school advanced study programs as well as what precedes and comes after these programs, this report provides teachers, parents, curriculum developers, administrators, college science and mathematics faculty, and the educational research community with a detailed assessment that can be used to guide change within advanced study programs.

To celebrate its 50th anniversary, the IB proudly invites you to read about the first half-century of its ongoing story. Written by a series of significant figureheads and stakeholders, this book describes - and celebrates - the ways in which the IB has seized the opportunity not only to address the need for an internationally recognized certification of educational achievement, but also to frame a global vision for values-based learning that improves the prospects for a better and more peaceful world. Contributors: Carolyn Adams; Sir John Daniel; Judith Fabian; Howard Gardner; Laura Gardner; Jenny Gillett; Matt Glanville; Judith Guy; Robert Harrison; Gareth Hegarty; Ian Hill; Carol Inugai-Dixon; Siva Kumari; Andrew Macdonald; Andrew Maclehorse; Pilar Quezzaire; Angela Riviere; Dominic Robeau; George Rupp; HRH Princess Sarvath El Hassan of Jordan; Anthony Tait; Nicholas Tate; George Walker.

Following the IB specification point by point for Topic 1: Systems Fundamentals this is an ideal companion for exam revision.

The most comprehensive match to the new 2014 Chemistry syllabus, this completely revised edition gives you unrivalled support for the new concept-based approach, the Nature of science. The only DP Chemistry resource that includes support directly from the IB, focused exam practice, TOK links and real-life applications drive achievement.
