Most of the Dragoon Spirit Legends assume that there is something extraordinary about the Dragoon recipient, whether it be blood or destiny or a mutual compatibility between the Spirit and the Dragoon, or even nothing more exalted than not failing to meet a certain standard. Since the Dragoon Spirit has a will of its own, we assume that it chooses Dragoons for a reason, and the reason must be something about them that suits the purposes of the Spirit.

“In science fiction there is only a handful of books that stretch the mind—and this is one of them.”—Arthur C. Clarke In a moving story of sacrifice and triumph, human scientists establish a relationship with intelligent lifeforms—the cheela—living on Dragon’s Egg, a neutron star where one Earth hour is equivalent to hundreds of their years. The cheela culturally evolve from savagery to the discovery of science, and for a brief time, men are their diligent teachers. Praise for Dragon’s Egg “Bob Forward writes in the tradition of Hal Clement’s Mission of Gravity and carries it a giant step (how else?) forward.”—Isaac Asimov “Dragon’s Egg is superb. I couldn’t have written it; it required too much real physics.”—Larry Niven “This is one for the real science-fiction fan.”—Frank Herbert “Robert L. Forward tells a good story and asks a profound question. If we run into a race of creatures who live a hundred years while we live an hour, what can they say to us or we to them?”—Freeman J. Dyson “Forward has impeccable scientific credentials, and . . . big, original, speculative ideas.”—The Washington Post

George, a young, overlooked boy, becomes aware of dragons hiding all around him. But when it becomes apparent that they don't belong in George's ordinary world, he endeavours to do the best for his new friends and find them the home they deserve. A heart-warming and magical tale from award-winning illustrator, Helen Ward.

One cold rainy day when my father was a little boy, he met an old alley cat on his street. The cat was very drippy and uncomfortable so my father said, "Wouldn't you like to come home with me?" This surprised the cat—she had never before met anyone who cared about old alley cats—but she said, "I'd be very much obliged if I could sit by a warm furnace, and perhaps have a saucer of milk."

Throughout his entire career, Taro Yoko has always felt disheartened by the image of humanity reflected in most big-budget video games, which propose the use of firearms as the principal means of action. Through his own work, from Drakengard to NieR: Automata, this artist attempts to explore the reasons behind our strange fascination with conflict. Is man so vicious that he must triumph, discriminate, hurt and kill even for entertainment? Within the great fields of ruin resulting from wars in which mankind battled against mankind, Taro Yoko perceives this "entertainment" as a way for hope, a horizon, a

Four tales of fantasy from a twentieth-century literary master—selected as the 1975 New York Times Outstanding Book for Children John Gardner's first children's book takes the traditional fairy tale and turns it on its head. In the title story, a meddling dragon meets his match. "The Tailor and the Giant" tells the story of a cowardly man who finally faces his fears. A villainous beast of burden attempts to rid himself of his master in "The Miller's Mule." And in "The Last Piece of Light," a brave young chimney-sweep saves the world from darkness. Filled with irreverent twists on the classic elements of princes and princesses, witches and wizards, and the magical realms that they inhabit, *Dragon, Dragon* is a collection of fun and fantastic tales to be cherished by readers of all ages.
