The present text is an outgrowth of such a laboratory course given by the author at the University of

Bookmark File

PDF Modern

Rochester between 1959 and 1963. It consisted of a one-year course with two 3-hour meetings in the laboratory and two 1-hour lecture meetings weekly; the students had access to the laboratory at all times and, in general, worked during hours of their own choice well in excess of the

Bookmark File

PDF Modern

scheduled periods.

The students worked in pairs, which in most cases provides a

highly motivating and successful

relationship. The

material included in this course was

selected from those experiments in atomic and nuclear physics that have laid the foundation and

Bookmark File

PDF Modern

provided the evidence for modern quantum theory. The experiments were set up in such a fashion that they could be completed in a two- to four-week period of normal work taking into account the other demands on the student's time.

Presenting a variety
