The working group WG 11.4 of IFIP ran an iNetSec conference a few times in the past, sometimes together with IFIP security conference, sometimes as a stand-alone workshop with a program selected from peer-reviewed submissions. When we were elected

# Bookmark File PDF Nokia 6131 User Guide

to chair WG 11.4 we asked ourselves whether the security and also the computer science community at large benefits from this workshop. In particular, as there are many (too many?) security conferences, it has become difficult to keep up with the field. After having talked to many

# Bookmark File PDF Nokia 6131 User Guide

colleagues, far too many to list all of them here, we decided to try a different kind of workshop: one where people would attend to discuss open research topics in our field, as typically only happens during the coffee breaks of ordinary conferences. To enable this we called for abstracts of 2 pages where the

# Bookmark File PDF Nokia 6131 User Guide

Authors outline the open problems that they would like to discuss at the workshop, the intent being that the author would be given 15 minutes to present the topic and another 15 minutes for discussion. These abstracts were then read by all members of the Program Committee

# Bookmark File PDF Nokia 6131 User Guide

and ranked by them according to whether they thought this would lead to an interesting talk and discussion. We then simply selected the abstracts that got the best rankings. We were happy to see this result in many really interesting talks and disc- sions in the course of the

# Bookmark File PDF Nokia 6131 User Guide

workshop. Of course, these lively and direct discussions are almost impossible to achieve in a printed text. Still, we asked the authors to distill the essence of these discussions into full papers. The results are in your hands.
