This is a comprehensive review for the new trauma-certified registered nurse exam, featuring innovative clinical judgment--enhancing content review, 500 practice-test Q&As with rationales, test-taking skills, and in-depth coverage of the test blueprint. This review is distinguished by its unique "Think in Questions" format, which helps readers to anticipate the kinds of questions that might be asked and promotes critical thinking throughout the exam. The content review is comprised of bite-size sections for easier learning and memorization that include thousands of unfolding questions, answers, and hints. The review's user-friendly format guides candidates through each topic with a short content review followed by a Socratic-style Q&A reasoning process to assist in arriving at the best possible clinical judgment. It also includes plentiful tables and charts to reinforce learning, a chapter on test-taking skills, specific guidance on preparing for the certification exam, and useful suggestions related to the exam format. Key Features: Goes beyond mere memorization of facts with "Think in Questions" Socratic-style content review Provides content review, practice exam-style Q&A with rationales, test-taking skills, and test blueprint format Includes thousands of unfolding questions, answers, and hints Contains "bite-size" sections for each topic for easier learning and memorization Includes 500 exam-style questions with rationales The Board of Certification for Emergency Nursing (BCEN) is the sole owner of the Trauma Certified Registered Nurse (TCRN) certification program. BCEN does not endorse any TCRN certification exam review resources or have a proprietary relationship with Springer Publishing Company.

"...[written by one of] the world's foremost experts in transcultural nursing. This...much-anticipated comprehensive compendium of evidence-based and best practices...contains exceptionally useful...material for nurse educators in academic and staff development settings and...their students." ó Margaret M. Andrews, PhD, RN, FAAN, CTN Director and Professor of Nursing School of Health Professions and Studies University of Michigan Flint Editor, Online Journal of Cultural Competence in Nursing and Healthcare "...a valuable new resource to support efforts...to provide high-quality care that is culturally appropriate... gives the professional nurse a road map for engaging in culturally appropriate, patient-centered, and high-quality care." ó Geraldine (Polly) Bednash, PhD, RN, FAAN Chief Executive Officer and Executive Director American Association of Colleges of Nursing "This ambitious book is a must-read synthesis of the existing knowledge related to transcultural nursing education... builds cultural competence in individuals and in organizations...Dr. Sagar makes an exceptional contribution to...the delivery of culturally competent care in all settings." ó Patti Ludwig-Beymer, PhD, RN, CTN, NEA-BC, FAAN Vice President and Chief Nursing Officer Edward Hospital and Health Services, Naperville, IL Associate Editor, Journal of Transcultural Nursing This comprehensive guide to integrating transcultural nursing education (TCN) strategies in academic and in-service institutions is the only text to fulfill the NLN and AACN mandates for promoting cultural diversity and competencies in these settings. Incorporating evidence-based, best-practice protocols, it provides course syllabi and a wealth of additional teaching aids for all education arenas from foundation classes through in-service domains. The text provides a variety of creative strategies for integrating TCN into academia and practice as a separate course or across existing courses (foundation and life span courses, mental health, pharmacology, nutrition, research, community health, critical care, and transcultural concepts in simulation). Pedagogical tools include cultural assessment instruments, self-learning modules, role plays, unfolding case scenarios,

Injury is an increasingly significant health problem throughout the world, accounting for 16 per cent of the global burden of disease. The public health burden of death and disability from injury is particularly notable in low and middle income countries. These guidelines seek to establish practical and affordable standards applicable to injury or trauma care worldwide, whether in rural health posts, small hospitals, hospitals staffed by specialists or tertiary care centres. It sets out a list of key trauma treatment services designed to be achievable in all settings, and defines the various human and physical resources required. It also includes a number of recommendations for methods to promote such standards including training, performance improvement, trauma team organisation and hospital inspection.

Concise yet up-to-date review of the most commonly encountered topics related to the critical care, trauma and emergency arena. All facets of medical profession may benefit, including doctors, nurses, pharmacists, respiratory therapist, physical, occupational, speech/language therapist. Emergency medical techs will also find it very useful in the field.

Written by emergency nurses for emergency nurses, Sheehy's *Emergency Nursing: Principles and Practice*, 7th Edition covers the issues and procedures unique to the emergency department. This comprehensive, evidence-based resource is written by the Emergency Nurses Association and includes developments and changes in clinical practice that are incorporated throughout the text. Considered the go-to guide for issues and procedures unique to the emergency department, the user-friendly format features more than 150 high-quality illustrations and tables that highlight essential concepts and offer quick access to vital information. New to this edition is updated key coverage including clinical fundamentals, treatment for trauma and medical-surgical emergencies, the foundations of emergency nursing practice, special populations, and more! Written by the Emergency Nurses Association, ensuring this is the most accurate information on the market. Most comprehensive and authoritative text available on emergency nursing. Logically organized, chapters are grouped into six sections for quick access to important content: Foundations of Emergency Nursing, Professional Practice, Clinical Foundations of Emergency Nursing, Major Trauma Emergencies, Medical and Surgical Emergencies, and Special Patient Populations. Tables and boxes highlight and summarize critical and essential information, while 150 illustrations help you to quickly identify and treat frequently encountered conditions. A separate unit on special patient populations covers topics such as child abuse, elder abuse, intimate partner violence, sexual assault, substance abuse and behavioral/pediatric/obstetrical emergencies. NEW! Coverage includes the latest on topical issues such as ethics, workplace violence, and geriatric trauma. UPDATED pain guidelines feature the latest pain indicators. UPDATED sepsis guidelines provide essential information on pathophysiology and diagnosis, with valuable guidelines for managing these patients. NEW! Fully revised information on communicable diseases. UPDATED Information on non-narcotic use for treatment of pain and increasing rates of addiction. NEW! Discussion of transgender patients covers how to work with this unique population. NEW! Full color photo insert
