Specification for the reinstatement of openings in highways: code of practice for England by Great Britain: Department For Transport; Highways Authorities & Utilities Committee at AbeBooks.co.uk - ISBN 10: 0115531416 - ISBN 13: 9780115531415 - Stationery Office - 2010 - Softcover

This code of practice sets out the statutory requirements for materials, performance and standards of workmanship for use in association with street works by utilities and other undertakers with apparatus in the street. It applies in England only and comes into effect on 1 October 2010, when it replaces the 2nd edition (2002, ISBN 9780115525384).

Under art. 31 of the Street Works (Northern Ireland) Order 1995, companies executing street works must comply with prescribed specifications when reinstating the street, in relation to materials used and standards of workmanship. This is the second edition of this publication which sets out guidance on the reinstatement standards required, and new features include new British Standards (in support of European standards) for asphalt materials covering composition and binder contents, new procedures for chalk materials, a new section on the use of sustainable alternative reinstatement materials and on specialist surfacing materials. This edition will come into operation on 1 October 2006 when it will supersede the first edition (ISBN 0337083797).

This publication contains practical good practice guidance for use by site operatives and supervisors involved with street works under the New Roads and Street Works Act 1991. This guide includes relevant reference material from the code of practice "Specification for the reinstatement of openings in highways" (2002, ISBN 0115525386) which has been approved under s. 71 of the 1991 Act, but this guide is not intended as a replacement or abbreviated version of the Code. The guide covers the process from signing and excavating issues to reinstating and leaving the finished site, and for each section information is given on specification details and key tasks, as well as health and safety issues.

The Code of Federal Regulations is the codification of the general and permanent rules published in the Federal Register by the executive departments and agencies of the Federal Government.

Each volume of this series contains all the important Decisions and Orders issued by the National Labor Relations Board during a specified time period. The entries for each case list the decision, order, statement of the case, findings of fact, conclusions of law, and remedy.
