The first edition of this book, titled A DESIGN FOR INSTRUCTIONAL SUPERVISION, provided a structural framework for an effective program of instructional supervision. The basic cognitive thrust of this second edition, SUPERVISION: A Guide to Instructional Leadership, remains the same as the first. What has changed is the attention to the detail surrounding the design components. References have been updated and streamlined, activities have been modified, and examples of structure have been created using the current national policy situation as a base. Philosophical and historical definitions of supervision are maintained and expanded in this edition. It will help professionals with responsibilities for instructional leadership design a supervisory program that fits a local situation by taking advantage of the foundation provided herein. Attention is given to the selection of and the interrelationships between those assumptions, principles, objectives, criteria, and procedures so that planners of supervisory programs will gain the knowledge and tools necessary to create that structure from this book. It also provides a means for schools to have a well-conceived, carefully designed, properly implemented, and continuously evaluated plan for the supervision of instruction in order to reply competently to state and federally mandated assessments for students. In addition, personal perspectives of the authors are presented in each part of the text. The book will serve as a guide and provide direction to instructional supervisors, directors of services, principals, administrators at all levels, teachers, grade level or department chairs, and others interested in the management of instruction in the school setting.

Supervising Principals for Instructional Leadership specifies the conditions that district leaders can create to help principal supervisors take a teaching and learning approach to their work. Based on their extensive research in district central offices, Meredith I. Honig and Lydia R. Rainey show how supervisors can most effectively support principals in becoming instructional leaders and developing the capacity to lead their own learning. "Supervising Principals for Instructional Leadership is a brilliant, inspiring, clear book that nails what it means to supervise school leaders for growth and helps the reader reimagine the role of the central office. Read this book, and use it immediately!" --Michael Fullan, professor emeritus, Ontario Institute for Studies in Education, University of Toronto "What does it look and sound like to support principals to lead learning? Honig and Rainey share their research-and-practice-tested wisdom, which combines the imagination to break free of conventional supervision with clear examples of what to do and what not to do, and a bundle of tools to make it happen." --Elizabeth A. City, senior lecturer on education, Harvard Graduate School of Education "For too long the work of principal supervision has been a black box; Honig and Rainey open up that box and provide practical steps for system leaders to take to support principals so that instruction improves for every child in every school. Their systemic approach is a must-read for any public education leader." --Joshua P. Starr, chief executive officer, PDK International "This finely crafted book about a critical school improvement problem is guided by a strong theory, builds on an impressively rich body of evidence, and includes many practical illustrations of the guiding theory in action. District leaders aiming to improve instruction in their schools will find much of value to their efforts in this text." --Kenneth Leithwood, emeritus professor, Ontario Institute for Studies in Education, University of Toronto Meredith I. Honig is a professor of Education Policy, Organizations, and Leadership at the University of Washington, Seattle. Lydia R. Rainey is a research scientist at the University of Washington, Seattle, and the director of research for the District Leadership Design Lab.
