For nearly ten years, Judge Glenda Hatchett has delighted TV audiences with a brand of justice that turns the everyday into something eminently watchable. Her message can be distilled into the following two words: Dare Yourself. Whatever obstacles or fears one faces, Judge Hatchett's prescription implores readers to write their own story in this life. With care and conviction, Judge Hatchett uses real life stories from the courtroom and her personal life to counsel readers. Shows them how to find their true purpose and gifts, to be real about their reality and its potential outside of challenging circumstances, and to always be true to themselves. Interactive as well as inspirational, DARE TO TAKE CHARGE challenges the reader to ask self-reflective questions that lead to moments of self-discovery and a defined pathway to healing. Daring her audience to study the positive with the same interest and intensity that they study the negative, Judge Hatchett uncovers the potential for grace and success in lives that are now punctuated with despair and unfaithfulness.

Expand third grade students' knowledge base and prepare them for Next Generation Assessments by incorporating these engaging, rigorous practice exercises into their daily learning. The practice tests in this e-book are the perfect preparation tool for Smarter Balanced Assessment Consortium (SBAC), Partnership for Assessment of Readiness for College and Careers (PARCC), State of Texas Assessment of Academic Readiness (STAAR), and other state testing. Higher-level questions, multi-step problems, and higher-order thinking skills required on these tests will take a lot of practice before students can become comfortable with the test. By implementing this resource into instruction, students will expand their skill set and be given the necessary tools needed to excel on these assessments. Featuring TIME FOR KIDS® content, this digital resource offers experience with questions similar to those that appear on today ' s assessments and includes ten high-interest informational texts, four engaging literature passages, three poems, and three reader's theater scripts; 16 as standalone exercise texts and two sets of paired exercise texts. Each text incorporates: questions for key ideas and details, craft and structure, integration of knowledge and ideas, and one or two constructed response questions based on technology-enhanced questions on the real tests. Not only will students enjoy preparing for assessments through these exercises, educators will feel fulfilled knowing they're setting their students up for 21st century success.

As a successful, respected and widely accomplished businessman, the last thing Alan Brand expected was to be diagnosed as HIV positive. He went into immediate denial. When the virus began to noticeably affect his health Alan decided it was time to take control and changed his attitude and his life. Positively Alive chronicles Alan's tremendous journey with HIV through vivid and personal journals where his revitalized holistic approach to health became so successful that when he finally divulged his status he had trouble convincing people that he was in fact HIV positive. Breaking the silence about his status into a positive force in transforming his life and the lives of others.

For a physician to succeed in The New World of health care delivery he or she needs to focus on four key areas of medical practice: his pati ents; his office; his business relationship with managed care plans, h ospitals and other physicians; and his marketing plan. Each of these reas is a pillar of effective practice, the importance of which will n ot be diminished or changed regardless of the direction of future heal th care reform.

"Exploring the role of conflict in organizations, this book helps managers, employees, and organizations come to grips with all types of conflict. Conflict is discussed as a likely result of human interaction, and the key purpose of this program is to assist people in effectively and productively managing and taking advantage of these inevitable conflict situations. A self-contained training curriculum around which an entire organizational conflict management program can be built, this book is designed for use as a guide to harnessing and taking advantage of the enormous energy associated with conflict, and is loaded with activities designed to reinforce and build on the understandings developed and to provide plenty of opportunity to practice what has been learned. Activities can be used to facilitate formal training with individuals, in work groups, or for personal use. "

The Common Core State Standards demand a level of understanding that requires students to engage with content. Students Taking Charge: Inside the Learner-Active, Technology-Infused Classroom focuses on increasing academic rigor, fostering student engagement, and increasing student responsibility for learning. Teachers and administrators who recognize the needs of today's society and students, and their impact on teaching and learning, can use this book to create student-centered classrooms that make technology a vital part of their lessons. Filled with practical examples and step-by-step guidelines, Students Taking Charge will help educators design innovative learning environments that allow students to take ownership of learning so they can achieve at high levels and meet the rigorous requirements of the Common Core. These innovative learning environments also empower students through problem-based learning and differentiation, where students pose questions and actively seek answers. Computer technology is then used seamlessly throughout the day for information, communication, collaboration, and product generation. Check out the learner-active classroom in action! <https://www.youtube.com/watch?v=zjyic1WVJ> <https://www.youtube.com/watch?v=1z0XfaY0XhU> <https://www.youtube.com/watch?v=y91flkGcyX4> https://www.youtube.com/watch?v=fjHH_ujBIFw

Dr. Wayne W. Dyer, the internationally best-selling author and lecturer, has written a new book in his series of inspirational books for kids. You're Not What You've Got addresses the topics of money and abundance, with the understanding that children ' s earliest thoughts and perceptions about money are those that will last throughout their lives. The concepts presented in this beautifully illustrated book include: Money does not define who you are; it doesn't matter what others have, and abundance comes in many forms. Unlike most books on this subject, It ' s Not What You've Got is not a how-to manual on spending and saving for kids, but rather a positive, spiritual approach to the meaning of money.

A new paradigm for teachers to open their classrooms and cultivate deep professional learning Teaching is an isolating profession. Most educators receive minimal feedback on their craft, typically limited to one or two short visits from the administrator each year. While some schools do encourage their teachers to observe peers, the usual protocol is for new teachers to watch the veteran, exemplary educators, but those less experienced educators could benefit immensely from having peers observe them in action. Teacher-Driven Observation is unique in that it places the observed teacher as leader of the work, the one who identifies a personal area for development, engages her colleagues in the collection of classroom data, and utilizes the data collected to inform her ongoing instruction. Offers a new model for collecting data to inform and improve individual instruction Includes a step-by-step process for implementing Teacher-Driven Observations Contains a comprehensive case study that clearly demonstrates the value of the Teacher-Driven Observation model This book outlines and illustrates a step-by-step process for breaking down professional isolation and cultivating opportunities for meaningful learning through the Teacher-Driven Observation process.
