graphs.

Four kids and their sidekick, Petey the parrot, run a sometimes thriving lemonade stand whose patrons include all kinds of wacky neighbors—even a juggler. They create a bar graph to track the rise and fall of their lemonade sales. Illustrator Tricia Tusa has imbued the story with her delightful sense of humor and has made understanding bar graphs a breeze.

Nan surveys her class to find out what types of pets they have. See how she creates a bar graph to share her results.

Tally McNally is an alley cat who loves to tally! He keeps track of all sorts of contests—who wins the most races, who is the tallest, who can climb the most trees, and more. When the results are counted up, Tally is always the winner. One rainy day, Tally competes to become the “wettest cat.” But he goes too far and gets into a jam. Will his friends—who lose to him tally after tally—find a way to save him?

Read Online The Great Graph Contest

Siberian tiger cub born at the Denver Zoo. One day he stops eating. The zoo staff tries to tempt him with treats, but he refuses them all. The staff doesn't give up, and finally their love and persistence pay off. T.J. grows up to be a huge, healthy tiger. The delightful pictures of T.J. and the heartwarming story of his life will charm young readers as they learn the basic math skills of graphing in *Tiger Math* by Ann Whitehead Nagda and Cindy Bickel. Those who like storybooks can read just the right-hand pages of this book. But those who want to know more can use the graphs on the left-hand pages to see exactly how T.J. grew.

An introduction to the concept of symmetry as found in nature and everyday objects includes step-by-step instructions for creating simple symmetrical designs.

Dan, Emma, and Ron want to compare how many apples they picked. Look at the picture graph to tell who picked the most.

Miss Prime and her animal students explore fractions by finding many examples in the world around them.

Read Online The Great Graph Contest

solving in the clever math adventure that introduces readers to charts and graphs through an annual bake-off. Sir Cumference and Lady Di need a baker to prepare a special dessert for the annual Harvest Faire. Two bakers compete to see whose dessert is most popular. When Pia of Chartres and Bart Graf have trouble keeping track of the votes their desserts receive, they each develop a better system. Pia places a colored candy around the edges of a pie dough (like a pie chart), and Bart stacks up cookie tins (making a 3D bar graph). When there's a tie, the two chefs cook up a hybrid dessert just in time for the Faire. Puns--both literal and visual--abound in this fun adventure story with beloved characters and a solid pedagogical foundation.

Blue Ribbon Blueberry Pie. If the bear cubs gather enough nuts, seeds and blueberries, Mama Bear has agreed to make her special, lip-smacking-good pie. Each time they fill their baskets, the cubs count berries, seeds and nuts by putting them in groups of tens and ones to see if they have enough for pie. Everyday activities such as sharing a meal, sorting socks and getting ready for school can be part of learning math. In the MathStart Series, everyday life is the basis for each entertaining story. Simple math concepts are embedded in each story so that young children can intuitively understand them. Adults can use the creative suggestions for activities in the back of
