Examines privateering and naval prizes in Atlantic Canada in the maritime War of 1812 - considered the final major international manifestation of the practice. It seeks to contextualise the role of privateering in the nineteenth century; determine the causes of, and reactions to, the War of 1812; determine the legal evolution of prize law in North America; discuss the privateers of Nova Scotia and New Brunswick, and the methods they utilised to

manipulate the rules of prize making during the war; and consider the economic impact of the war of maritime communities. Ultimately, the purpose of the journal is to examine privateering as an occupation in order to redeem its historically negative reputation. The volume is presented as six chapters, plus a conclusion appraising privateering, and seven appendices containing court details, prize listings, and relevant letters of agency.

Published for the first time in 1999, Descorchados is the most important guide to the wines of South America. This year, no fewer than 4,341 samples from Argentina, Brazil, Chile, and Uruguay crossed the Descorchados tasting table, and 3,177 of them are included in this book. It's an enormous job—but one we are very passionate about. Beyond the stats, however, we at Descorchados aim to offer a broad overview of what's happening in the world of wine on this side of the planet. The latest trends, the newest valleys, the varieties that have been recovered or adopted, the names to keep an eye on, and the work being done by the large and small wineries alike. If they have character, we're interested in them! Descorchados is a large and in-depth journalistic report that we do once a year to provide a wide-angle view of the dynamic and increasingly entertaining Latin American wine scene. More than 3,000 wines reviewed in this edition—and you're sure to find more than one you like in Descorchados 2019! Cheers!
