Tracks in the Sand is a collection of essays that maps the contours of a layered life. Outdoorsman and cattle farmer H. Turney McKnight writes about the natural world with the grace of a poet and the ease of a seasoned storyteller. From rivers in the Russian Arctic and Chesapeake Bay to the mountains of Idaho, McKnight leads readers across the varied landscape of his experiences. In language sometimes as rippled and salty as the mid-Atlantic coastal marshes he writes about, McKnight punctuates his prose with equal parts humor and wit, reverence and humility. He recounts adventures (and misadventures) on high mountain slopes and sea-level streams, fond memories of polo and pond hockey, the perennial

delight of the calving season on his Harford County farm, and a culinary misstep with a snapping turtle. Whether toting rod, gun, or binoculars, McKnight's experiences have been shaped by ceaseless wonderment of the natural world, the study of which comes through in his writing. Written in the tradition of Norman Maclean's *A River Runs Through It*, the resulting collection memorializes the author's bottomless gratitude for the people, animals, and places woven into its pages.

Eggs laid in the sand by a female sea turtle hatch into tiny turtles, which eventually grow large enough to lay their own eggs.

Pretia's best friend, Rovi, is ecstatic when he hears that the Junior Epic Games will be held in Phoenis, where he lived before attending Ecrof. He's excited to return as a Dreamer, an athlete at the top of his game. But all is not well with the Star Stealers. Rovi's old friends are being blamed for the unrest surrounding the Games, even though he's sure they have nothing to do with it. Now that he's back in Phoenis, Rovi is faced with a difficult question: Is he a Dreamer or a Star Stealer? Can he be both? As tensions mount, Pretia and Rovi, along with their friend Vera, find themselves in a race to save the Star Stealers. And they begin to understand that if anyone is going to make a new future for Epoca, it just might be them.

A personal and historical exploration of the Bears Ears country and the fight to save a national monument. The Bears Ears National Monument in southeastern Utah, created by President Obama in 2016 and eviscerated by the Trump administration in 2017, contains more archaeological sites than any other region in the United States. It ' s also a spectacularly beautiful landscape, a mosaic of sandstone canyons and bold mesas and buttes. This wilderness, now threatened by oil and gas drilling, unrestricted grazing, and invasion by Jeep and ATV, is at the center of the greatest environmental battle in America since the damming of the Colorado River to create Lake Powell in the 1950s. In *The Bears Ears*, acclaimed adventure writer David Roberts takes readers on a tour of his favorite place on earth as he unfolds the rich and contradictory human history of the 1.35 million acres of the Bears Ears domain. Weaving personal memoir with archival research, Roberts sings the praises of the outback he ' s explored for the last twenty-five years.

Zen Sand is a classic collection of verses aimed at aiding practitioners of k ô an meditation to negotiate the difficult relationship between insight and language. As such it represents a major contribution to both Western Zen practice and English-language Zen scholarship. In Japan the traditional Rinzai Zen k ô an curriculum includes the use of jakugo, or "capping phrases." Once a monk has successfully replied to a k ô an, the Zen master orders the search for a classical verse to express the monk ' s insight into the k ô an. Special collections of these jakugo were compiled as handbooks to aid in that search. Until now, Zen students in the West, lacking this important resource, have been severely limited in carrying out this practice. *Zen Sand* combines and translates two standard jakugo handbooks and opens the way for incorporating this important tradition fully into Western Zen practice. For the scholar, *Zen Sand* provides a detailed description of the jakugo practice and its place in the overall k ô an curriculum, as
