Donald Trump ("King of Wildcards") shocked us all in 2016, turning the world upside down. Interference is obvious, but from who and why, and will it happen again in 2020? As prophesied by President Lincoln, America would not be defeated by a foreign army but by her own hand. Retired U.S. Navy SEAL LT Dan Wilson asks that YOU anti-up, and help rescue America from the attacks on this One Nation Under God!

Americans woke up on November 9th, 2016 to find that political neophyte Donald J. Trump had surprisingly defeated former Secretary of State Hillary Rodham Clinton in what had been an ugly election battle. Some cheered. Some cried. Some celebrated. Some protested. But a common question on everyone's mind was... "How could this have happened?" *The Trump Card* attempts to answer this question,

looking not only at the election, but the systemic changes in mass media which led to this historic moment. A Media Psychologist examines the many influences which provided the environment for a populist candidate like Donald Trump to become the leader of the most powerful nation on earth. Dr. Anthony Bryson explains how ideology, deregulation, special interests, social media, foreign actors, and a cross-section of psychological theory set the stage for a political messaging campaign which gripped the nation and moved the needle just enough to win a tight election.

NEW YORK TIMES BESTSELLER! Ivanka is donating the unpaid portion of her advance and all future royalties received from Women Who Work to the Ivanka M. Trump Charitable Fund, a donor advised fund that will make grants to organizations that empower and educate women and girls.* "This is a chatty step-by-step guide to living a happy life and getting ahead in a career." —USA Today "The advice is spot-on for everyone, not just women." —Tony Hsieh, CEO of Zappos.com and author of Delivering Happiness I believe that when it comes to women and work, there isn't one right answer. The only person who can create a life you'll love is you. Our grandmothers fought for the right to work. Our mothers fought for the choice to be in an office or to stay at home. Our generation is the first to fully embrace and celebrate the fact that our lives are multidimensional. Thanks to the women who came before us and paved the way, we can create the lives we want to lead—which look different for each of us. I've been fortunate to be able to build my career around my passions, from real estate to fashion. But my professional titles only begin to describe who I am and what I value. I have been an executive and an entrepreneur, but also—and just as importantly—a wife, mother, daughter, and friend. To me, "work" encompasses my efforts to succeed in all of these areas. After appearing on The Apprentice years ago and receiving a flood of letters from young women asking for guidance, I realized the need for more female leaders to speak out publicly in order to change the way society thinks and talks about "women who work." So I created a forum to do just that. This book evolves the conversation that started on IvankaTrump.com, where so many incredible women (and men!) have shared their experiences, advice, ambitions, and passions. Women who work lead meetings and train for marathons. We learn how to cook and how to code. We inspire our employees and our children. We innovate at our current jobs and start new businesses. Women Who Work will equip you with the best skills I've learned from some of the amazing people I've met, on subjects such as identifying opportunities, shifting careers smoothly, negotiating, leading teams, starting companies, managing work and family, and helping change the system to make it better for women—now and in the future. I hope it will inspire you to redefine success and architect a life that honors your individual passions and priorities, in a way only you can. * The Ivanka M. Trump Charitable Fund (the "Fund") is a donor advised fund that supports the economic empowerment of women and girls. Imagine... The US, as the sole Christian and Western power, down to the third slot from the top, is being squeezed out by China and India,

the number one and two economies in the world, and challenged by two upcoming Muslim countries, Indonesia and Turkey, from the other end. All the while, Germany, the UK, and France are struggling to hold on to the bottom of the barrel in the top ten list, being of no help to the US during this onslaught. No, it is not a horror movie. It is about to become reality. And as early as within a decade! Unless Erdoğan and Trump can eliminate soft bellies in the Middle East and Europe, setting the stage for the US to establish balance of power against the rapidly rising East.
