Given its importance in analysing and influencing the world around us, an understanding of colour is a vital tool in any design process. Colour design provides a comprehensive review of the issues surrounding the use of colour, from the fundamental principles of what colour is to its important applications across a vast range of industries. Part one covers the main principles and theories of colour, focusing on the human visual system and the psychology of colour perception. Part two goes on to review colour measurement and description, including consideration of international standards, approval methods for textiles and lithographic printing, and colour communication issues. Forecasting colour trends and methods for design enhancement are then discussed in part three along with the history of colour theory, dyes and pigments, and an overview of dye and print techniques. Finally, part four considers the use of colour across a range of specific applications, from fashion, art and interiors, to food and website design. With its distinguished editor and international team of contributors,

Sir Henry Morton Stanley (1841-1904) was a journalist and explorer renowned for his adventures in Africa. After emigrating to America in 1859, Stanley worked as a journalist for the New York Herald. In 1869 he was instructed to undertake an expedition to find the missionary David Livingstone, and the success of this mission brought him public recognition and financial success. These volumes, first published in 1885, provide an account of Stanley's exploration of the Congo river in the service of Leopold II of Belgium between 1879 and 1884. Deriving from Stanley's journal, the books describe the difficulties he faced as he founded permanent trading stations, and his negotiations with indigenous leaders, together with his plans for the commercial exploitation of Africa. Stanley's controversial methods to achieve this aim, which led to his modern reputation as a racist and imperialist, are also revealed. Volume 2 covers 1883-4.

insurance in dramatic new ways to achieve the best "bottom line" return. The results? Financial and estate planning is inexpensive, safe and simple. There is no better technique available to discount estate tax costs. Barry Kaye's authoritative research exposes the shocking misconceptions about estate planning and life insurance. With extensive charts, tables and descriptive detail, he outlines 30 different concepts anyone can apply to personal estate planning. Some examples: -- How to offset any tax or loss -- How to preserve any estate -- How to create, optimize and maximize any asset To show how his plan works in real life, Kaye applies his strategies to the estates of well-known people, demonstrating how his investment alternative system would work to protect and increase the estates of Bill Gates, Oprah Winfrey, Ross Perot, Jeffrey Katzenberg and other notables. "Cushioning the blow of estate taxes the premier marketer of life insurance to pay estate tax is Mr. Kaye. His name and face can be found nationwide in magazine ads, in stores selling his books, in paid shows on cable television and in the seminars that draw crowds of affluent people to hear how to reduce your estate tax cost up to 90%". -- The Wall Street Journal "Barry Kaye, once again, convincingly conveys the concept that insurance can not only preserve worth, but increase it. He describes over 50 concepts and ideas that show the tremendous power of utilizing insurance in ways never expressed before". -- Forbes
