### Tennis Fitness - Tennis Workout | Conditioning | Exercises ...

Tennis Fitness Components #2: Speed, Agility and Stamina The next three tennis fitness components are speed, agility and stamina. If a program was designed such that a player would work on speed drills (like running sprints) then agility drills (like shuttle runs) and then endurance training (like long distance running), you might think that you would then be already a completely fit tennis player.

One of the main components of fitness for tennis is agility and speed. When delivering exercises using this component it's best to remain 360 degrees in your approach, as the sport requires full court coverage and the ability to move the body in all planes of movement. Here are some good drills to help improve your agility:
