The flap may have been touched during operation. Operate the air conditioner, and then turned it off. The flap will close properly. In the event the air conditioner stops operating due to a power outage, causing the flap to remain open, the flap may not close completely when the power supply resumes. In such a case, operate the air conditioner.

Troubleshooting | Air Conditioning and ... - Daikin Global
Winter is here: prepping your air conditioning unit Brrrr! Winter has arrived. It's the time of the year when we pack our swimsuits and switch our air conditioning from cooling to heating to keeping us warm and cosy in these cold and dormant months,
