Games Primates Play An Undercover

Games Primates Play uncovers our evolutionary legacy: the subtle codes that govern our behavior are the result of millions of years of evolution, predating the emergence of modern humans. To understand the rules that govern primate games and our social interactions, Maestriperi arms readers with knowledge of the scientific principles that ethologists, psychologists, economists, and other behavioral scientists have discovered in their quest to unravel the complexities of behavior.

In Games Primates Play, primatologist Dario Maestriperi examines the curious unspoken customs that govern our behavior. These patterns and customs appear to be motivated by free will, yet they are so similar from person to person, and across species, that they reveal much more than our selected choices.
