The cancer itself poses significant challenges related to treatment, and the chemotherapy involved can often induce its own set of issues. In these difficult cases, psychiatric problems and palliative care often come to the forefront of a physician's concerns. The book examines these and other issues, including metabolic, gastrointestinal, respiratory, genitourinary, dermatological, and neurological problems that occur in advanced cancer cases.

### ESMO Handbook of Advanced Cancer Care - 1st Edition ...

Patients with advanced cancer increasingly receive end-of-life care from a variety of health care professionals, physicians and nurses. These professionals need to be able to assess the original diagnosis and the appropriateness of patient referral, set a treatment or palliation program, and recognise and plan for the clinical problems associated with specific primary tumors.
